Condensate pumps - which pump for which purpose?

With our condensate pump matrix, we would like to invite you to find the right condensate pump for your project quickly, easily and with just a few clicks. In this table, the performance data of various manufacturers and models can be easily seen at a glance and you can use your project-related parameters to immediately assess which pump is right for your order.

Look forward to the first manufacturer-independent condensate pump table created by Schiessl

Here you can view and open the table directly. The details of the articles can be found, as usual, by clicking on the order number in our shop.
